FILMOGRAPHY

In this following Document, you will find a list of my work as a Makeup, Hair & Styling Artist in the fields of feature long films, short films, music videos and advertisements.

These diverse projects were filmed between 2008 and 2020 and included shooting in the following countries: Switzerland, England, Scotland, Germany, Austria, Italy, France, Spain, Iraq and America.

MOST IMPORTANT PROJECTS

Over the years I had the opportunity to work on many different projects. Some of them were special because of the wonderful people I met, some of them were big brands I was proud to work for and some of them were wonderful stories I am glad to have been a part of. Every new project is a new challenge and in some way a bit different than all the ones before, the following projects were somehow special to me and deserve some more attention. That's why I tried to include some little stories into every category.

MOST SPECIAL PROJECTS

FILMS

Baghdad in my shadows (long feature Film shot 2017/ 18) : So far, my biggest and longest project. We were filming in 4 different countries including England, Germany, Switzerland and Iraq over the time of 1 Year. But in the movie, the continuity played a huge part and almost everything plays in London and within 3 weeks. Our cast where over a dozen main actors, all required a special look which included an everyday aging makeup, an everyday scar and a hands / nails prosthetic for our main actors Haytham's fingers. I met a wonderful crew and lovely people around the world and was honoured to work with all of them.

Blue my mind (long feature Film shot 2016) : The young teenager Mia is facing an overwhelming transformation which calls her entire existence into question, she slowly transforms into a Mermaid. As the head of the makeup department I didn't only have the honor to work with some beautiful special young women and creating there looks and makeups but my job was also to create some of the absurd special effects of Mias Body transformation. The film has won many prizes around the globe for best film and best actress as well as many other categories.

Goliath (long feature Film shot 2015) : For this long film about a love story between a Bodybuilder and a pregnant Hairstylist I was honoured to be the head of a wonderful makeup department and I was challenged to create several prosthetics such as two pregnancy bellies (5-7 month and 8-9 months). This was a wonderful and new experience with a lot of little challenges and shooting over the 4 different seasons of the year 2015 / 2016.

MOST IMPORTANT PROJECTS

SHORT FILM

Facing Mecca (Short feature Film 2016) : This project to me was extraordinary, partly because this breath taking story was based on a true story but also because I got to work on one of the most loving movie sets I have ever been on. People from all around the world with stories that are horrible and unspeakably sad but also to see and feel that in the end no matter what we are all so similar, having the same hopes and dreams and love. So, it means the world to me, that this wasn't only a great production but also became a very moving film that won several dozens of prizes at festivals around the world, as well as the short film Oscar for students and made it to the top 6 nominations in the Oscars short film category.

MOST IMPORTANT PROJECTS

MUSIC VIDEOS

I think music videos are always fun, it's a short time project and can be only visually beautiful or as in this two music videos, tell a whole story. **Gravediggers chant (Zeal & Ardor)** was a great video that we shot in France, the weather was horrible it was freezing cold and raining almost the whole time but we managed somehow to get thru it and include this almost post-apocalyptic mood into the video. What a horrible and wonderful experience all in one. The second video is "**still believe in Music**" (**Yes im very tired now**) from the Director Dennis Ledergerber: With a very strong vision and concept from Dennis we shot that video and with all the beautiful visuals and special effects, especially fun was it to create the cut of finger prosthetic, the smashed hands and the exploded color from the bank robbery.

MOST IMPORTANT PROJECTS

ADVERTISEMENT

For the Restaurant **George** in Zurich we shot an advertisement that was very special, over 30 Characters with all their own looks and styles and just two shots to create the whole film. For those very long take shots we had to rehearse a lot and get it exactly right, what a great challenge.

Some jobs are just a one-time thing and other clients are returning again and again. I am very lucky to work with this clients over several times in the last years. Most important to me is it to work with a great crew but it's a wonderful feeling to see your work in the TV or on a Screen in the City.

So here some namedropping in the end: **VICTORINOX, DYSON, ADIDAS, IKEA, MAMMUT, MERCEDES BENZ, MIGROS, COOP, VOGUE, SBB, SWISSCOM, CREDIT SUISSE BANK, UBS BANK , SWISS, MIELE** and many more.

After all this years of doing different jobs and and meeting a lot of people it is a great gift to have some consistent crews and people to work with. I worked with the team of Christian Ammann for about 4 years now and we got to shot many advertisements (**Nikon, Mammut, Dyson, Victorinox, Swiss, Kjus** and many more) but this one for the luxurious cashmere brand **Hawico** in Scotland was special to me, because I got to do my job without any distractions in a beautiful place surrounded by wonderful people and dolphins.
